Grad hourly - NSF Project Associate

- Hourly rate between $15-$22
- Up to 20 hours per week, and flexible given schedule and demands of the project
- Location: Remote/Engineering Campus- North of Green

Job Description

NCPRE strives to find alignment between the interests of those who join our projects and the work we are doing, and to provide useful and relevant experience to students. We welcome information on accommodations or technology requirements that will allow you to fully participate in this position.

This Grad Hourly position is a member of the funded National Science Foundation iREDs funded research and outreach project. This position will work with the co-PIs to assure smooth operation and coordination of the research, with primary responsibility for:

- Management of IRB protocols, recruitment of participating laboratories, participant consent and documentation
- Survey dissemination
- Scheduling communication of IRB phases to participants
- Maintaining and secure participant records and data
- Scheduling project updates with project leads

For full consideration, please email a cover letter and a resume to: Amy Delahanty, Research Program Coordinator, amy8@illinois.edu

Requirements

- Current graduate student
- The ability to analyze success, accept and accommodate outside evaluations, and perceive reactions and outcomes
- Demonstrated ability to display a professional demeanor in all interactions with internal team and high-level funder officials

Skills

- Preferred background in science, or closely related field, including familiarity with scientific terminology, research settings, and aspirations
- Preferred familiarity with Qualtrics, Keynote, and Pages
- Well-organized; self-starter
